

NAD VISO 1

WIRELESS DIGITAL MUSIC SYSTEM

THE BEST SOUNDING SMART MUSIC SYSTEM IN THE WORLD. PERIOD.

The NAD VISO 1 is inspired design married to some of the most sophisticated audio technologies in the world today. The result is a new way to experience your mobile music collection. With the NAD VISO 1, every detail of your digital music is clear with all the warmth and emotion of a live musical performance. This immersive musical experience must be heard to be believed.

NAD VISO 1

WIRELESS DIGITAL MUSIC SYSTEM

Easy as 1,2, 3

The NAD VISO 1 is compact and easy to enjoy right out of the box. No messy wires or complicated setup. The innovative precision 'ring' design allows you to operate your iPod in a completely natural way, without compromising Apple's well thought out ergonomics. The remote allows you to start or stop the music, skip tracks and adjust the volume.

Wireless Options

Integrated Bluetooth aptX wireless high fidelity reception allows any Bluetooth enabled device to seamlessly integrate with the NAD VISO 1. This allows wireless integration of the iPod, iPhone and iPad, as well as Android and Windows-based smartphones and tablets.

NAD Direct Digital™

NAD VISO 1 includes NAD's Direct Digital™ technology first introduced in our groundbreaking top-of-the-line Master Series M2 Direct Digital™ Amplifier. The NAD VISO 1 offers two major advances in iPod music systems: it plays the music stored on your iPod in its native digital form, completely bypassing the limiting audio circuits of the iPod, and the processing power in Direct Digital™ technology allows the speakers to be optimized for sonic performance. Renowned speaker designer Paul Barton (on loan from our sister company, PSB Speakers) used Direct Digital™ to give the NAD VISO 1 the same musical authenticity and acoustic performance that has set his award-winning designs apart over the last 40 years.

FEATURES AND SPECIFICATIONS

Power Rating Total	80W (Sub - 50W, Left - 15W, Right - 15W)
Frequency Response	33Hz - 28kHz (-6dB) Anechoic, 50Hz to 20K ±1dB Anechoic
Sound Pressure Level (maximum)	100dB
NAD Direct Digital™ DAC/Amplifier	35 bit/844kHz, 0.005% THD
Bi-amplified System with Digital Crossover and Volume Control	
Digital Soft Clipping™	
Bluetooth aptX Wireless Hi-fidelity Receiver	2.4Ghz
Driver Complement	2 x 2.75" Full range drivers with aluminium dome/cone and dual magnetic drive 1 x 5.75" Subwoofer with symmetrical magnetic drive
Connectivity	Optical Digital Input - 32KHz to 96KHz PCM Component Video Output - Y Pb Pr USB port for software upgrades
Accessories	Remote control model VISO 1
Power Consumption	AC Power - 100V to 240V 50/60Hz 35W (1/3 Output Power) AC Idle Power - 10W
Net Dimensions (WxHxD)	488mm (19.2") x 261mm (10.3") x 300mm (11.8")
Weight	5.6kg (12.34lbs)
