

MEDIA

What's in a name?

We call all the INSTALL products a name starting with Qi.

So we are moving to call calling the MEDIA products as:

Q Acoustics Media 4 Hi-fi Soundbar

or

Q Acoustics M4

or

Q Media 4

or

Q M4

NEW Q Acoustics MEDIA 4

Built-in wall bracket and feet included for shelf-mounting

Bluetooth with aptX, NFC and 8 different Bluetooth addresses

Q Acoustics MEDIA 4
HI-FI SoundBar

The Q Acoustics Media 4 is a high performance soundbar designed to deliver high fidelity reproduction of music, and high quality audio from a TV or set top box, tablets and smartphones.

The Q Acoustics M4 features BMR driver units. These innovative speakers create clear room filling sound. An acoustically matched built-in high performance subwoofer adds real bass. You will enjoy a 'cinema' audio experience with the Q M4 compared with using the TV speakers alone.

The Q M4 is a 'Hi-Fi soundbar', designed to play music and movies with equal accomplishment.

With both analogue and optical inputs the unit can also be used with a variety of other entertainment sources such as games consoles, Blu-ray CD and portable music players.

The unit is also Bluetooth compatible using aptX lossless Bluetooth for audio streaming. This wireless connection can sync to almost any Bluetooth compatible audio device. It can remember up to eight pairings, so when friends or family come over, a 'guest' music player can get connected in just seconds. The aptX Bluetooth use is V4.0 and is compatible with the V3.0, V2.1, V2.0 even V1.2, so will work with older devices.
