

indiana line

L'elevata definizione e naturalezza nella riproduzione delle voci, unite alla risposta ai transienti veloce e precisa, caratterizzano i diffusori della linea Tesi. La loro considerevole capacità dinamica si somma ai bassi caldi e corposi. I woofer utilizzano coni in polipropilene rinforzato con mica e rifasatori centrali per migliorare risposta e dispersione alle medie frequenze. I tweeter utilizzano cupole di seta molto leggera, potenti magneti al neodimio ed un'esclusiva camera di risonanza posteriore.

The remarkable definition and naturalness in the voice reproduction, combined with fast and accurate transient response, characterize the Tesi line loudspeakers. Their considerable dynamic capability is added to the warm bass and full-bodied. The woofers feature special polypropylene cones stiffened with mica and central phase plugs, to improve response and dispersion at the medium frequencies. The tweeters use light-weight silk dome, powerful neodymium magnets and an exclusive rear chamber.
