B•TECH
BETTER BY DESIGN®

2010 PRODUCT CATALOGUE

I would like to take this opportunity to welcome you to B-Tech Audio Video Mounts and introduce you to our latest catalogue.

B-Tech continues to invest heavily in research and development to ensure that our range of audio video mounting solutions is one of the most comprehensive in the industry. All products are designed and engineered at our international head office, located in central England, which includes a 4,500 square meter distribution facility. In addition to that, we have a European office and warehouse located in Brussels, Belgium to facilitate quick and efficient deliveries throughout Europe, together with offices and warehousing strategically located in Buffalo, NY, for North America, Singapore for the Asia Pacific region and Hong Kong for the China market. All of these allow B-Tech Audio Video Mounts to be supplied no matter where that key installation is in the world. Our international network of regional stocking distributors truly enhances B-Tech Audio Video Mounts as a worldwide leader in audio video mounting solutions.

Thanks and best regards from everyone at B-Tech.

ABOUT US

B-Tech Audio Video Mounts is an industry leader in the design and manufacture of audio and video mounting solutions, offering one of the most extensive, versatile and comprehensive ranges available. Since its inception in 1972, B-Tech has truly earned a considerable and unrivalled reputation for product design, quality, value and customer service excellence.

Strategically located in the Midlands, England, the purpose built B-Tech UK Headquarters houses the international Sales and Marketing divisions, showrooms, Research and Development laboratories, testing house, and a warehousing facility with a stocking capacity of more than 45,000sq ft. From this solid foundation, B-Tech distribution reaches out to all corners of the globe through our committed network of distributor partners and backed up with the support of our B-Tech subsidiary offices located in Hong Kong, Singapore, Belgium and New York.

PRODUCT DEVELOPMENT

The B-Tech range of AV mounts and supports are of class leading strength and durability. Practical designs with unique B-Tech touches ensure a user friendly, straightforward installation every time. All product ranges are designed to meet the very strict industry safety standards and many products are tested and approved by bodies such as GS/TUV and UL. B-Tech also holds membership to many industry organisations such as Cedia and InfoComm.

B-Tech backs its ever expanding range of mounts and supports with a no-quibble ten year lifetime guarantee against defects and workmanship.

CUSTOM DESIGN SERVICE

With in house design facilities, B-Tech is able to develop and manufacture short run lines and bespoke products in a timely fashion. With an excellent network of manufacturing facilities, products can be manufactured in the UK or offshore - depending on quantities required and the time available.

If you have a requirement for a product which is not featured in the B-Tech range, please contact your B-Tech distributor to develop your solution. In many cases, a solution can be found using B-Tech's extensive range of off-the-shelf components and accessories. Otherwise, B-Tech's Bespoke Service Team can accommodate all of your mounting requirements.

PRODUCT PACKAGING

Continual investment in international brand recognition affords B-Tech a high profile standing within the consumer electronics industry. To strengthen that position, this Autumn sees the launch of new retail packaging rolling out across all the B-Tech consumer ranges. This fresh, high impact design, full of new features and specifications, now comes with much improved instruction manuals and key bullet point translations in 9 different languages. The new B-Tech Mountlogic range packaging includes new colour gift boxes with carry handles and also the new 'blister box'.

mountlogic® range

B-TECH AUDIO VIDEO MOUNTS

The Mountlogic range from B-Tech offers one of the most comprehensive retail packed ranges of audio video mounts and supports on the market today. The range has recently benefited from an update, giving products a more stylish design and making them even easier to install. In addition to this update, the new packaging is clean, stylish and gives the range a fresh new look.

- Designed and engineered in the UK
- Over 100 retail products with genuinely original designs
- Multiple finishes as standard including black, silver, white or chrome
- Quick and easy installations
- Comprehensive fixing kits included
- Simple pictorial instructions
- Products designed to GS/TUV safety standards

QUICK RELEASE LCD/TFT
SCREEN MOUNTING ADAPTOR

- Quick release adaptor for LCD / TFT flat screens up to 15kg
- Fits 75 x 75mm and 100 x 100mm VESA mounting patterns
- Allows screen to be quickly and easily removed for storage or use in another location
- 15kg (but does not increase the weight limit of the mount to which the BT7590 is attached)
- Simple installation with all fixings included
- MUST BE USED WITH VESA 75 x 75mm MOUNT SOLD SEPARATELY

IDEAL FOR USE IN

- Boats
- Caravans
- Mobile Homes
- Trucks
- Holiday homes
- Summer houses

BT7518
BT7513
BT7590

HOW IT WORKS

One part of the mount attaches to the screen, the other to a standard VESA 75 x 75mm mount. The two plates then simply slide together and "CLICK" into a secure position. To remove the screen, simply press the locking tab at the top of the mount and slide the screen off the mount.

The locking mechanism makes this mount ideal for use in mobile applications where it is important that the screen is properly secured during transit.

Due to the ease of screen removal, the BT7590 is also ideal for use in areas where security is a concern. The BT7590 allows a screen to be quickly removed for storage in a secure location, ideal for use in low screen usage areas where the best theft prevention method is removal of the screen.

FLAT SCREEN MOUNTING ADAPTORS

An extensive range of adaptor plates that can be used in conjunction with any VESA compatible mount. These adaptors allow increased VESA fixing compatibility or allow for non-VESA screens to be mounted on VESA standard mounts.

mountlogic ®
range

B-Tech offer an extensive range of adaptor plates that can be used in conjunction with the B-Tech range of flat screen wall mounts. B-Tech also offer a range of adaptors for specific sets where the mounting points are positioned in a way that requires a non universal mounting solution.

CABLE MANAGEMENT & FLAT SCREEN CLEANERS

mountlogic®
range

The B-Tech cable management system is a stylish alternative to plastic conduit. The extruded cable management strip integrates with a range of AV component shelves to provide a comprehensive cable management and AV component mounting system. The range of high quality Bib flat screen cleaners offer excellent anti-static cleaning properties in a convenient hand-grip unit.

B-Tech offer a range of Cable Management solutions to hide the ever present problem of trailing AV cables. The BT7070 Cable Manager is an aesthetically pleasing aluminium extrusion and is a stylish alternative to plastic conduit/ trunking. In addition to the cable manager itself, B-Tech offer 90° corner connectors and a range of shelves to integrate with the cable manager itself. The shelving solutions provide a stylish way to support AV equipment under a wall mounted screen.

BT7070

CABLE MANAGER

- Holds up to 4 AV cables
- May be cut to length if desired and the white model can also be painted to match its surroundings
- Made from a single aluminium extrusion

As standards, the DS3 is designed to display the following B-Tech AV mounts: -

BT7510
BT7518
BT7513
BT8421
BT7522
BT7532
BT7535

Alternatively the following models can be substituted: -

BT7510 can be replaced with BT7511
BT7518 can be replaced with BT7512
BT8431 can be replaced with BT8432
BT7532 can be replaced with BT7533
BT7535 can be replaced with BT7515

The B–Tech DS3 retail display stand has been developed to demonstrate the quality of B-Tech AV mounts in retail environments. The DS3 comes flat packed and can be easily assembled in store in approximately 5 minutes. The stand comes supplied with pre-drilled holes, fitted with insert nuts for ease of product mounting.

The stand has been designed with stability in mind and B-Tech articulated arms can be fully demonstrated with no stability issues thanks to the steel base and framework. The stand is finished with a silver header and base, and a durable white display area. The B-Tech logo and "Better by Design" graphics are pre-applied as shown and the rear of the stand is finished with a silver cover for an aesthetically pleasing appearance.

There are various mounting options available with the new DS3. Thanks to multiple fitted inserts, the product layout can be changed depending on the desired display products.

SYSTEM 2 PROFESSIONAL RANGE

The B-Tech professional range of AV mounts is one of the most versatile in the industry and consists of flat screen mounts, the System 2 pole mounting system, professional projector mounts, exhibition mounts, AV security devices, security fasteners and professional install cables. Using heavy Gauge steel, the range is designed to make professional installations safe, solid and secure.

The System 2 range is a modular component system enabling professional installers to tailor the mounting solution to suit their own individual requirements. This B-Tech range has been installed in some of the most prestigious sports stadia, airports, hotels, schools and government offices worldwide.

SYSTEM2™

B-Tech's "System 2" series is a component based system for professional installations. For greater flexibility and convenience components are supplied individually. Ceiling / wall brackets, extension poles, accessory collars and AV mounts are ordered separately, depending on the requirements of the installation.

The "System 2" range works on a modular principle with 50mm (2") diameter poles that can easily be cut to length and joined. Poles may be attached to the wall or ceiling and can hold all manner of AV devices with the use of accessory collars and mounts from B-Tech.

Mounts for joists, purlins, I-beams and both internal and external pole joiners make the "System 2" range a truly versatile and flexible modular mounting system. This new range is compatible with existing installations and may also be used in conjunction with truss systems, scaffolding poles, NPT pipes or other poles from 48mm to 51mm (2") in diameter.

Accessory brackets and collars also allow other AV equipment such as Speakers, DVD players or Laptop computers to be mounted onto the installation. The full range has been designed to include coverplates that hide the mounting fixings. This combined with the new 'taper trim' that clearly blends the mounts to the pole, results in a very aesthetically pleasing and highly adaptable mounting range to suit any installation requirement.

HOW TO USE B-TECH ACCESSORY COLLARS

Any B-Tech product showing the 'collar compatible' symbol can be fixed to our range of accessory collars, allowing a variety of AV equipment to be securely attached to any B-Tech pole. This includes the System 2 range of professional components, our range of desk mounting solutions, and our floor stands and trolleys.

Accessory collars are also supplied as standard for use with many of our professional mounting solutions, including plasma trolleys and heavy duty flat screen ceiling mounts.

ATTACHING A COLLAR

- Slide the collar into position and affix using the provided grub screws

- A safety bolt is also provided which can pass through the pre-drilled hole at the end of a B-Tech System 2 pole. You may choose to re-drill the safety hole in an alternative location if preferred. B-Tech floor stands, trolleys and desk mounts do not require the use of this safety bolt

- Attach your chosen mount to the collar using the screws and washers provided

- Each collar has fixings on the front and rear, allowing you to produce 'back to back' installations

- When you are happy with the location of the mount you can fit the collar covers for a more aesthetic finish. The collar covers cannot be used for back to back installations

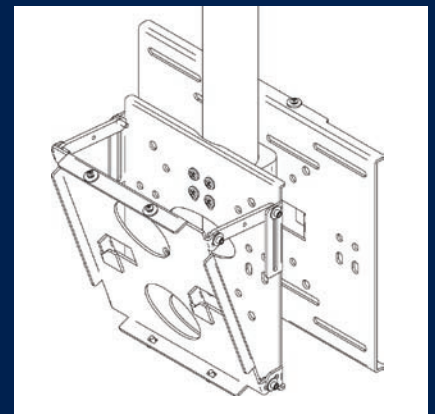

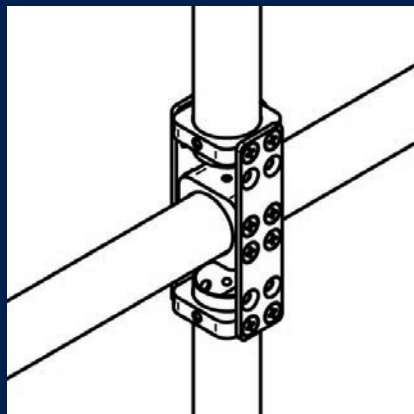

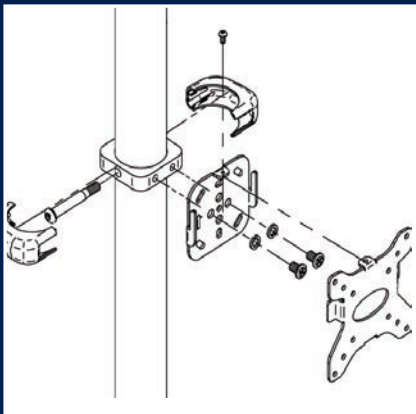

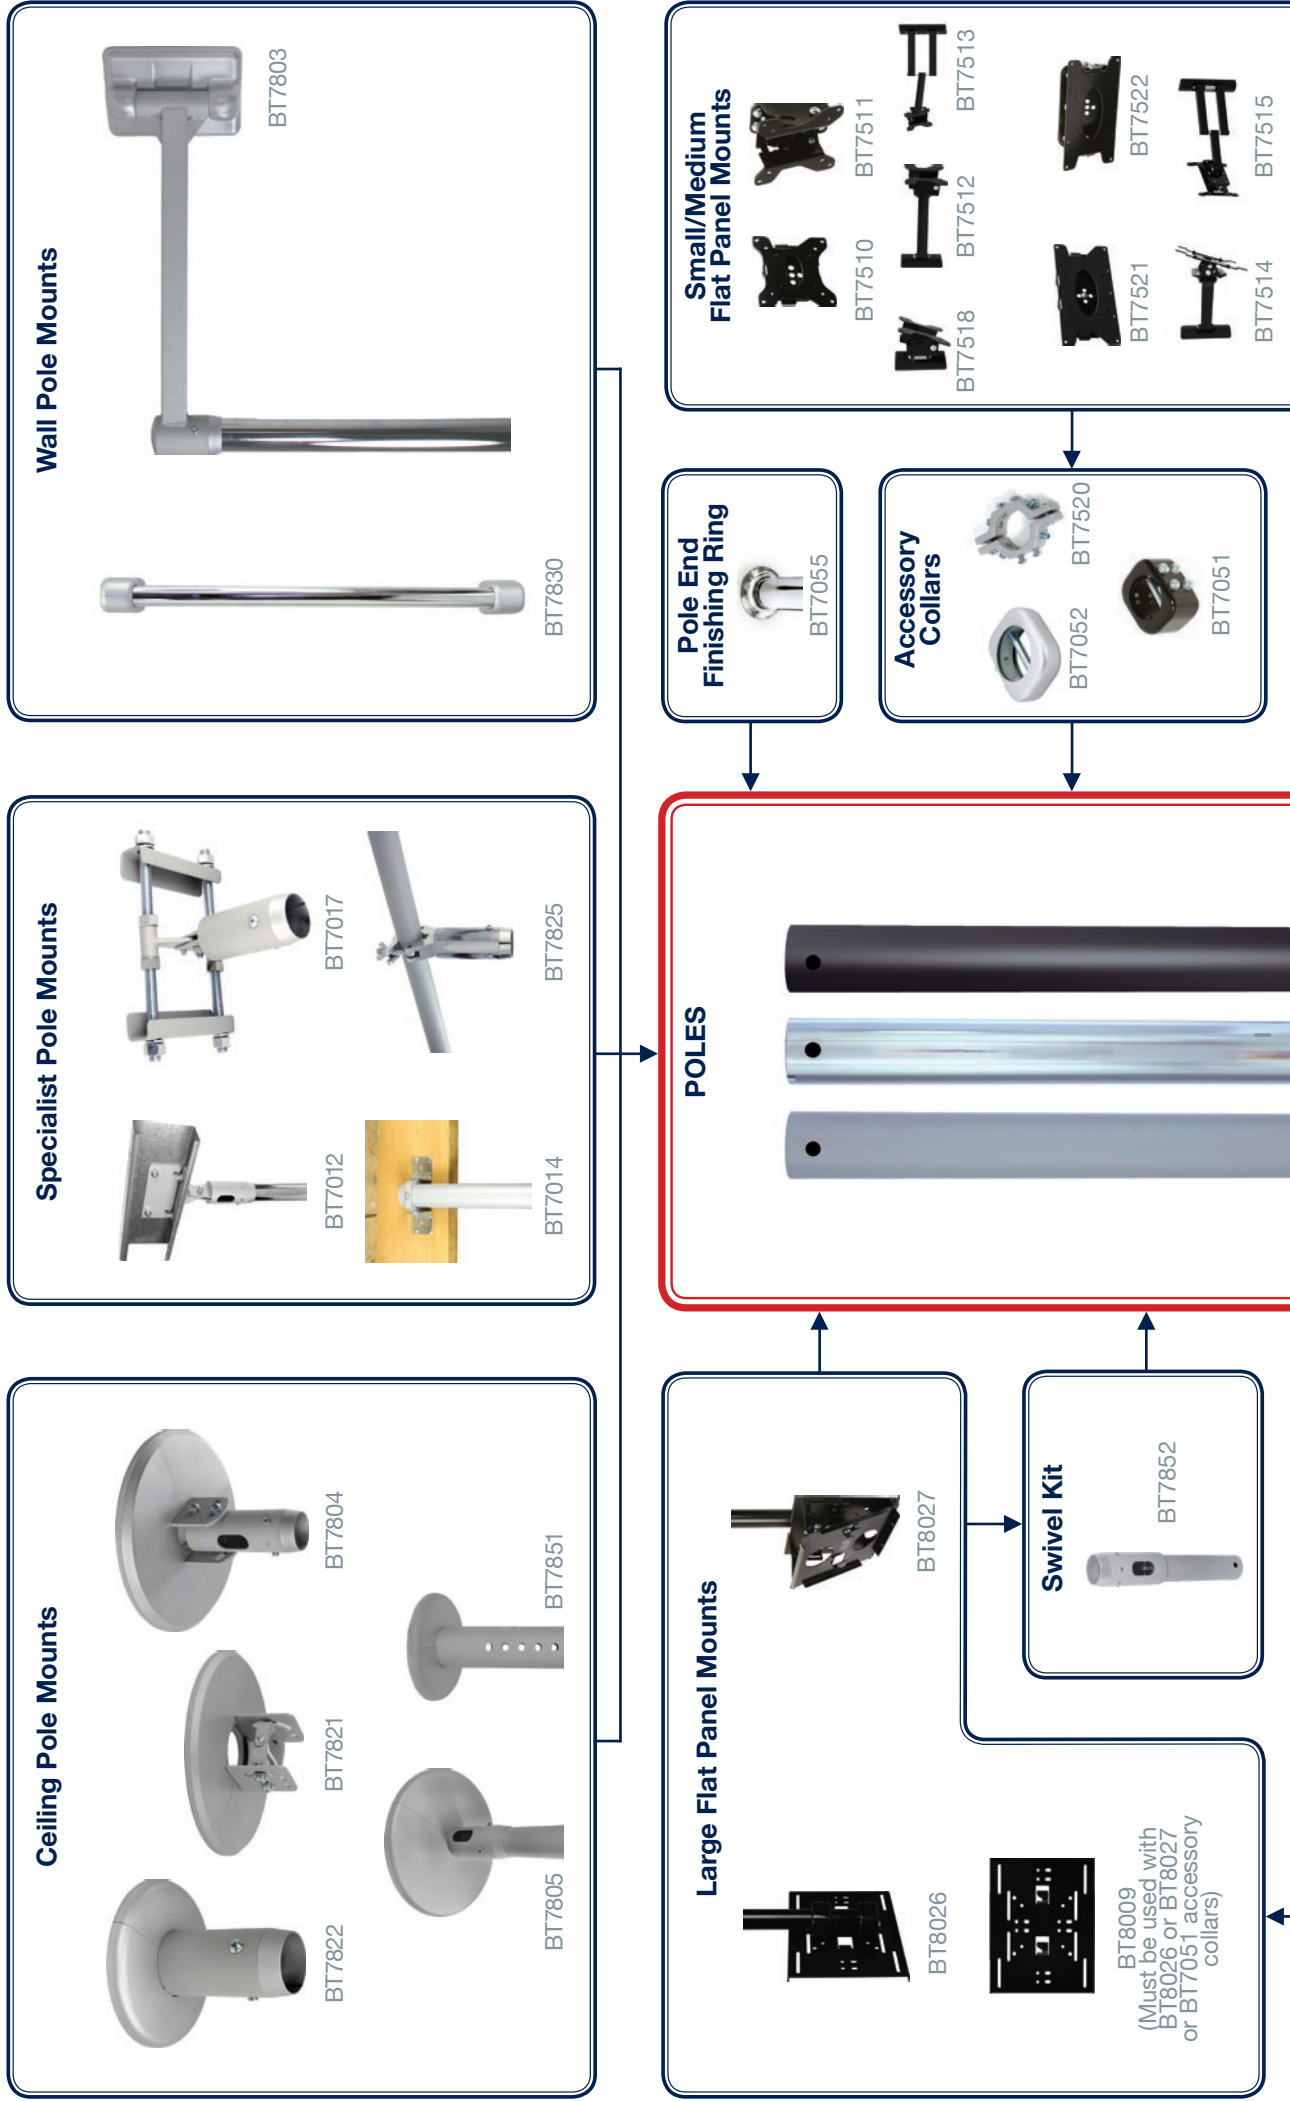

- Use 50mm collars for System 2, or any other 50mm / 2"pole including competitor products
- Use 50mm collars for our range of desk mounted solutions excluding BT7305
- Use 60mm collars for our range of LCD and Plasma floor stands and trolleys, and the BT7305 desk mount
- Use 42mm or 35mm collars for the BT890 projector trolley, or BT880 range of adjustable projector ceiling mounts

TYPICAL CONFIGURATIONS

1

BT7025 (x2)
Thin Collar (x2)
Thick Collar (x2)
B-Tech Pole (x2)

In line 'T' configuration.
The horizontal pole can only be mounted at the end of the vertical pole. Please note: Thick collars must be used for this configuration.

2

BT7025 (x2)
Thin Collar (x2)
Thick Collar (x1)
B-Tech Pole (x3)

In line 'cross' configuration.
This allows multiple horizontal poles to be mounted in line with vertical poles.

3

BT7025 (x1)
Thin Collar (x2)
Thick Collar (x1)
B-Tech Pole (x2)

Horizontal pole mounted in front of a vertical pole.
Can be mounted anywhere along the vertical pole.

4

BT7025 (x2)
Thin Collar (x2)
Thick Collar (x2)
B-Tech Pole (x3)

Horizontal poles mounted back to back in front of a vertical pole.
Can be mounted anywhere along the vertical pole.

5

BT7025 (x2)
Thin Collar (x2)
*Thick Collar (x2)*
B-Tech Pole (x4)

Horizontal poles mounted back to back on the front of two in line vertical poles.
The horizontal poles can only be mounted at the end of the vertical pole.

6

BT7025 (x1)
Thin Collar (x2)
Thick Collar (x1)
B-Tech Pole (x2)

Horizontal pole mounted in front of a vertical pole.
Can be mounted anywhere along the vertical pole. This is an alternative to configuration 'C'. It can also be mounted back to back as an alternative to configuration 'D'.

COMPATIBILITY

140kg 308lbs

### FEATURES

Available in Black, Silver

PACKAGING

PRO
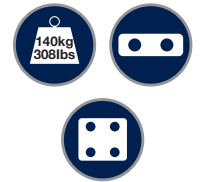

WARNING

The recommended weight limit of the BT7025 is 140Kg (70Kg each side of the BT7025). Individual weight limits of attached and supporting mounts must not be exceeded. As B-Tech has no control over how this product is used, it is important that installers ensure the structure is strong enough before attaching AV equipment and that the structure is counterbalanced at both ends of all horizontal poles. B-Tech accept no liability for loss or damage caused by improper installation or mounting on unstable structures.

AV COMPONENT SHELVES

Designed to compliment a pole mounted screen, the range of B-Tech AV component shelves is the perfect accessory to support all your AV equipment. Compatible with our hugely successful System 2 and floor stand ranges, B-Tech component shelves provide you with a huge choice of accessory mounting options.

B-Tech glass shelves are a stylish add-on for any professional pole installation, floor stand or AV trolley

The 12mm thick, toughened safety glass shelves can be mounted to 1 or 2 poles depending on the model chosen and will support up to 7.5kg or 15kg of AV equipment respectively.

BT7151

50MM GLASS SHELF MOUNT

EXHIBITION MOUNTS

The B-Tech exhibition stand mounting system has been designed to fit slotted modular exhibition stands such as 'Octonorm™' and many other leading stand manufacturers' systems. Using two main components: a horizontal interface bracket (BTX24/H) and a vertical interface bracket (BTX24/V), they fit on to exhibition stands with width slots of between 4.3mm - 8.5mm. AV equipment can then be securely mounted to the stand using specific B-Tech mounts as well as B-Tech collars and B-Tech collar compatible mounts.

BTX24H

HORIZONTAL EXHIBITION MOUNT

- Designed for mounting on horizontal profile slots
- Holds up to 10kg
- 5 Threaded mounting centres for easy attachment to screen mount
- Adjusts to fit slots from 4.3mm to 8.5mm
- Suitable for all B-Tech accessories displaying the 'Accessory Collar Compatible' symbol

TAMPER RESISTANT SECURITY FASTENERS

PRO
INSTALL

B-Tech now stocks a full range of tamper proof security fixings that are ideal for use with the B-Tech range of mounts and supports to help deter screen removal and unauthorised adjustments. This range of fasteners significantly increases the security of your AV equipment by making the removal of a B-Tech mount more difficult. B-Tech offers a wide variety of fasteners and drive tools for installation and removal.

ARMOUR RINGS

Armour Rings™ provide a simple yet highly effective method to make standard hex head bolts, nuts and screws tamper resistant. After conventional tightening of the fastener the conical rings are knocked into place using a hammer and so do not limit the torque the fastener requires.

SIZES AVAILABLE
(SUPPLIED IN PACKS OF 10)

The armour rings are only available for 13mm hex-head bolts and are supplied in packs of 10. Please use the order code below.

ORDER CODE: BTS/AR-M8

The bright zinc plated steel rings provide a clean look and can be retrofitted to any 13mm BS or DIN standard hexagon head bolts, nuts and screws. Compatible with all B-Tech supplied 13mm coach screws used for wall mounting products.

Bolt / Screw not included

PIN HEX MACHINE SCREW

The pin hex system uses a simple yet effective method of adding tamper resistance to AV equipment. The head comprises of a protruding pin inside a standard hexagon socket recess. The addition of the internal pin prevents removal using standard hexagon keys. Removal of a pin hex security fastener is very difficult without the matching drive tool.

SIZES AVAILABLE
(SUPPLIED IN PACKS OF 12)

The table below shows the size availability of the pin hex machine screws. To order, please quote the prefix shown in red below and the suffix for the specific screw you require shown in red in the table below. For example, to order an M4 x 10mm screw, use order code BTS/PHM4-10.

AV INTERCONNECT CABLES AND CONTROLS

The B-Tech range of high quality interconnects has been designed to suppress RF and EM interference and to ensure a clean signal path is maintained. High quality durable moulded or metal plugs with 24K gold plated connectors are used for the best possible connection, and where appropriate, special locking clips have been included to prevent cables falling out of sockets. The outer braided nylon jacket provides strong protection and increased cut resistance to the inner cable, making these interconnects ideal for the Professional Installer and Home Cinema enthusiast alike.

- High grade O.F.C (Oxygen Free Copper) conductor for minimum signal loss
- SUPPLIED IN PROFESSIONAL INSTALL ZIPPED BAG

BTXL23
Available in the
following lengths

0.8m = BTXL23-008
1.5m = BTXL23-015
3.0m = BTXL23-030
5.0m = BTXL23-050
10.0m = BTXL23-100
15.0m = BTXL23-150

BTXL39

HDMI - HDMI

- HDMI™ male plug to HDMI™ male plug
- Capable of transferring full HD 1080p signals
- HDMI version 1.3 compliant
- 24k Gold plated connectors for superior signal transfer
- Robust moulded plugs
- Heavy duty nylon braided outer jacket protects cable
- Individually shielded and fully screened to eliminate RF and EM interference
- High grade O.F.C (Oxygen Free Copper) conductor for minimum signal loss
- SUPPLIED IN PROFESSIONAL INSTALL ZIPPED BAG

BTXL39
Available in the
following lengths

0.8m = BTXL39-008
1.5m = BTXL39-015
3.0m = BTXL39-030
5.0m = BTXL39-050
10.0m = BTXL39-100

BTXL41

HDMI - DVI

- HDMI™ male plug to DVI-D Dual link male plug (24 Pin + Flat Blade)
- 24k Gold plated connectors for superior signal transfer
- Robust moulded plugs
- Heavy duty nylon braided outer jacket protects cable
- Individually shielded and fully screened to eliminate RF and EM interference
- High grade O.F.C (Oxygen Free Copper) conductor for minimum signal loss
- Digital only
- SUPPLIED IN PROFESSIONAL INSTALL ZIPPED BAG

BTXL41
Available in the
following lengths

0.8m = BTXL41-008
1.5m = BTXL41-015
3.0m = BTXL41-030
5.0m = BTXL41-050
10.0m = BTXL41-100

BTXL43

DVI - DVI

- Dual Link DVI-D male plug to DVI-D Dual link male plug (24 Pin + Flat Blade)
- 24k Gold plated connectors for superior signal transfer
- Robust moulded plugs
- Heavy duty nylon braided outer jacket protects cable
- Individually shielded and fully screened to eliminate RF and EM interference
- High grade O.F.C (Oxygen Free Copper) conductor for minimum signal loss
- Digital only
- SUPPLIED IN PROFESSIONAL INSTALL ZIPPED BAG

BTXL43
Available in the
following lengths

0.8m = BTXL43-008
1.5m = BTXL43-015
3.0m = BTXL43-030
5.0m = BTXL43-050
10.0m = BTXL43-100
